We have been using Sports Coaching Ltd for the last two years to provide quality sports lessons for our junior classes. The coach follows carefully prepared lesson plans that are made available to the staff and cover the national curriculum. Lesson plans are adapted to suit the children and the school - in our case mixed age classes. The coach always arrives in good time and is prepared for the lesson. Behaviour management is good and the children enjoy themselves getting involved and making the most of each session while practicing and trying out new skills. The coach contributes to school reports by giving us feed back on pupil performance, attitude, effort and progress.
